

Product marking without repair and costly preventive maintenance requirements? The new **apsolute** printer provides excellent print quality on non-porous surfaces and porous materials. However, it remains economical as it's maintenance free and requires no spare or wearing parts, no cleaner or make-up.

apsolute ^{vi} ly perfect!

- Direct marking & coding of products, plastic films, blister material, coated and varnished cartons, secondary packaging and many other materials
- Independent printing on up to 4 production lines / print positions
- Thermal Inkjet Technology guarantees high reliability (no moving parts...)
- No preventive maintenance, no repairs
- A superior print quality
