The Barrel Cone

Wire tangling got you over a barrel?

The Barrel Cone contains and controls the wire you're pulling.
The new design matches the high feed rates of today's wire processing systems.

- Keeps your wire clean
- Fits standard wire barrels
- Clear so you can see your remaining product
- Delrin doughnut sleeve allows wire to slide out of top easily
- Can be moved from empty barrel to full easily, no down time
- Avoid garbage in barrel
- Wire tangling down time is virtually eliminated
- Pays for itself in the wire you scrap through tangling
