Superior Paper Handling Solutions, Inc.

Pulsar Jogging System

The Pulsar System automatically accepts collated stacks from the batch counting system, jogs the stacks to retail quality, and automatically delivers to the lugged infeed of the existing wrapping system

Superior-PHS offers a full range of jogging and squaring solutions to meet your specific application and budget requirements.

The **Pulsar System** as shown can run products 3" x 3" up to 12" x 14", (smaller and larger formats are available) and from 2 sheet thickness to 3.0 inch thickness (larger heights are available). Pulsar Systems can be configured to run off-line or in-line, and can run a wide range of product types. **Pulsar Systems** can be configured with Superior-PHS Batch Count Systems, Verification Systems, Top Sheet Placers, Transfer Systems, PrintStar Systems, and more, or it can be easily integrated with customer's existing production lines.

Superior-PHS can provide any combination of integrated modules for your application or a complete turnkey system tailored to meet your specific application requirements.
